WMSM 2020 update: COVID-19 (coronavirus)

As the news about the COVID-19 outbreak continues to evolve and some major events are being cancelled or postponed, we want to reassure you that preparations for the 22nd ISSM Biennial World Meeting on Sexual Medicine (WMSM) are ongoing. Of course, the safety and well-being of all those attending is and remains our top priority. We are following updates on the COVID-19 situation from local authorities and recommendation from the World Health Organization. With the WMSM due to take place mid September 2020, the WMSM team is confidently working on the upcoming meeting in Yokohama, Japan. We are very grateful for the ongoing support of our attendees, sponsors and exhibitors who continue to register, commit to and plan for the 22nd ISSM Biennial World Meeting on Sexual Medicine. We will continue to monitor official travel advisories related to COVID-19 and update this website to keep you informed.
